

Delivering Beyond Small-Talk

August 24, 2007

Dear Valued Global Telecom Brokers Customer:

Effective September 1, 2007, Verizon - Virginia will raise the pricing on their retail Local Service components. As a result of this increase, wholesale pricing provided to Global Telecom Brokers (GTB) will also be adversely affected.

This increase affects services such as business lines, custom calling services, local usage, listing and operator services. GTB remains committed to providing affordable voice and advanced broadband service, at reduced pricing, to our customers. For customers who receive services provided over the Verizon network, GTB will continue to offer pricing at 5% below the Verizon retail tariffed rate. This will apply **ONLY** to those services provided over the Verizon network.

The effective date of this increase for GTB customers will be October 1, 2007.

As an example, your GTB Business Tariff resale line rate(s), prior to October 1, 2007, was \$11.00. The new rate(s) will be \$13.25, before discount. Please note that our rates still remain below the Verizon retail rates. Refer to the back of this letter for additional rate information.

Since we cannot predict if there will be future wholesale increases, we encourage all our customers to consider migrating their service off the Verizon platform and on to the GTB network. GTB has spent the last several years designing a state-of-the art network that provides the latest access technology for advanced voice, data and customer-managed services. We offer many competitive pricing plans that bundle voice and data with a suite of products such as: calling features, expanded local calling, firewall protection, network monitoring, remote data back-up and phone systems.

If you should have any questions, you may contact us at **(877) Call GTB (225-5482)**, accessing one of the following options:

- New Sales – Option 1
- Customer Service – Option 2

You may also contact us at facilities@gtb.net. Please include your business name, account number and contact information.

Currently, we are offering several promotions and incentives for customers wishing to migrate their service to the GTB network or renew expired contracts. We appreciate your business and look forward to a long-term business relationship.

Sincerely,

Global Telecom Brokers
